

GPS/GSM/GPRS DAKWIT PORTATIL CON CASE DE SEGURIDAD

3G GPS Tracker Universally Applicable

Feature:

- 1.It supports 3G WCDMA full frequency and is compatible with 2G, and it is universally applicable without limit to distance and countries.
- 2.AGPS rapid and accurate positioning gives you fast tracking.
- 3.GSM blind area supplementary transmission: When GSM signal meets the blind area, GPS positioning data is saved intelligently and the transmission will continue when there is a signal.
- 4.Newly upgraded APP settings: APP can set all instructions and query status, no need to do setting with SMS or record the device card number after APP runs on the device.
- 5.Smart positioning mode: When the device is moving, the APP will automatically position it; but when the device is still, it will switch to the mode of low power consumption and energy saving (save electricity and GPRS data).
- 6.When the device connects to power supply and the GPRS is normal, it will always work.
- 7.There had added optional functions of oil measurement, voltage measurement and electricity measurement.
- 8.Real-time dynamic query to the 3-month history track is available.

9.You can control the relay remotely on APP to cut off oil and power, so as to realize the function of parking and locking the car.
